Introduction: Joseph Borg, GRC

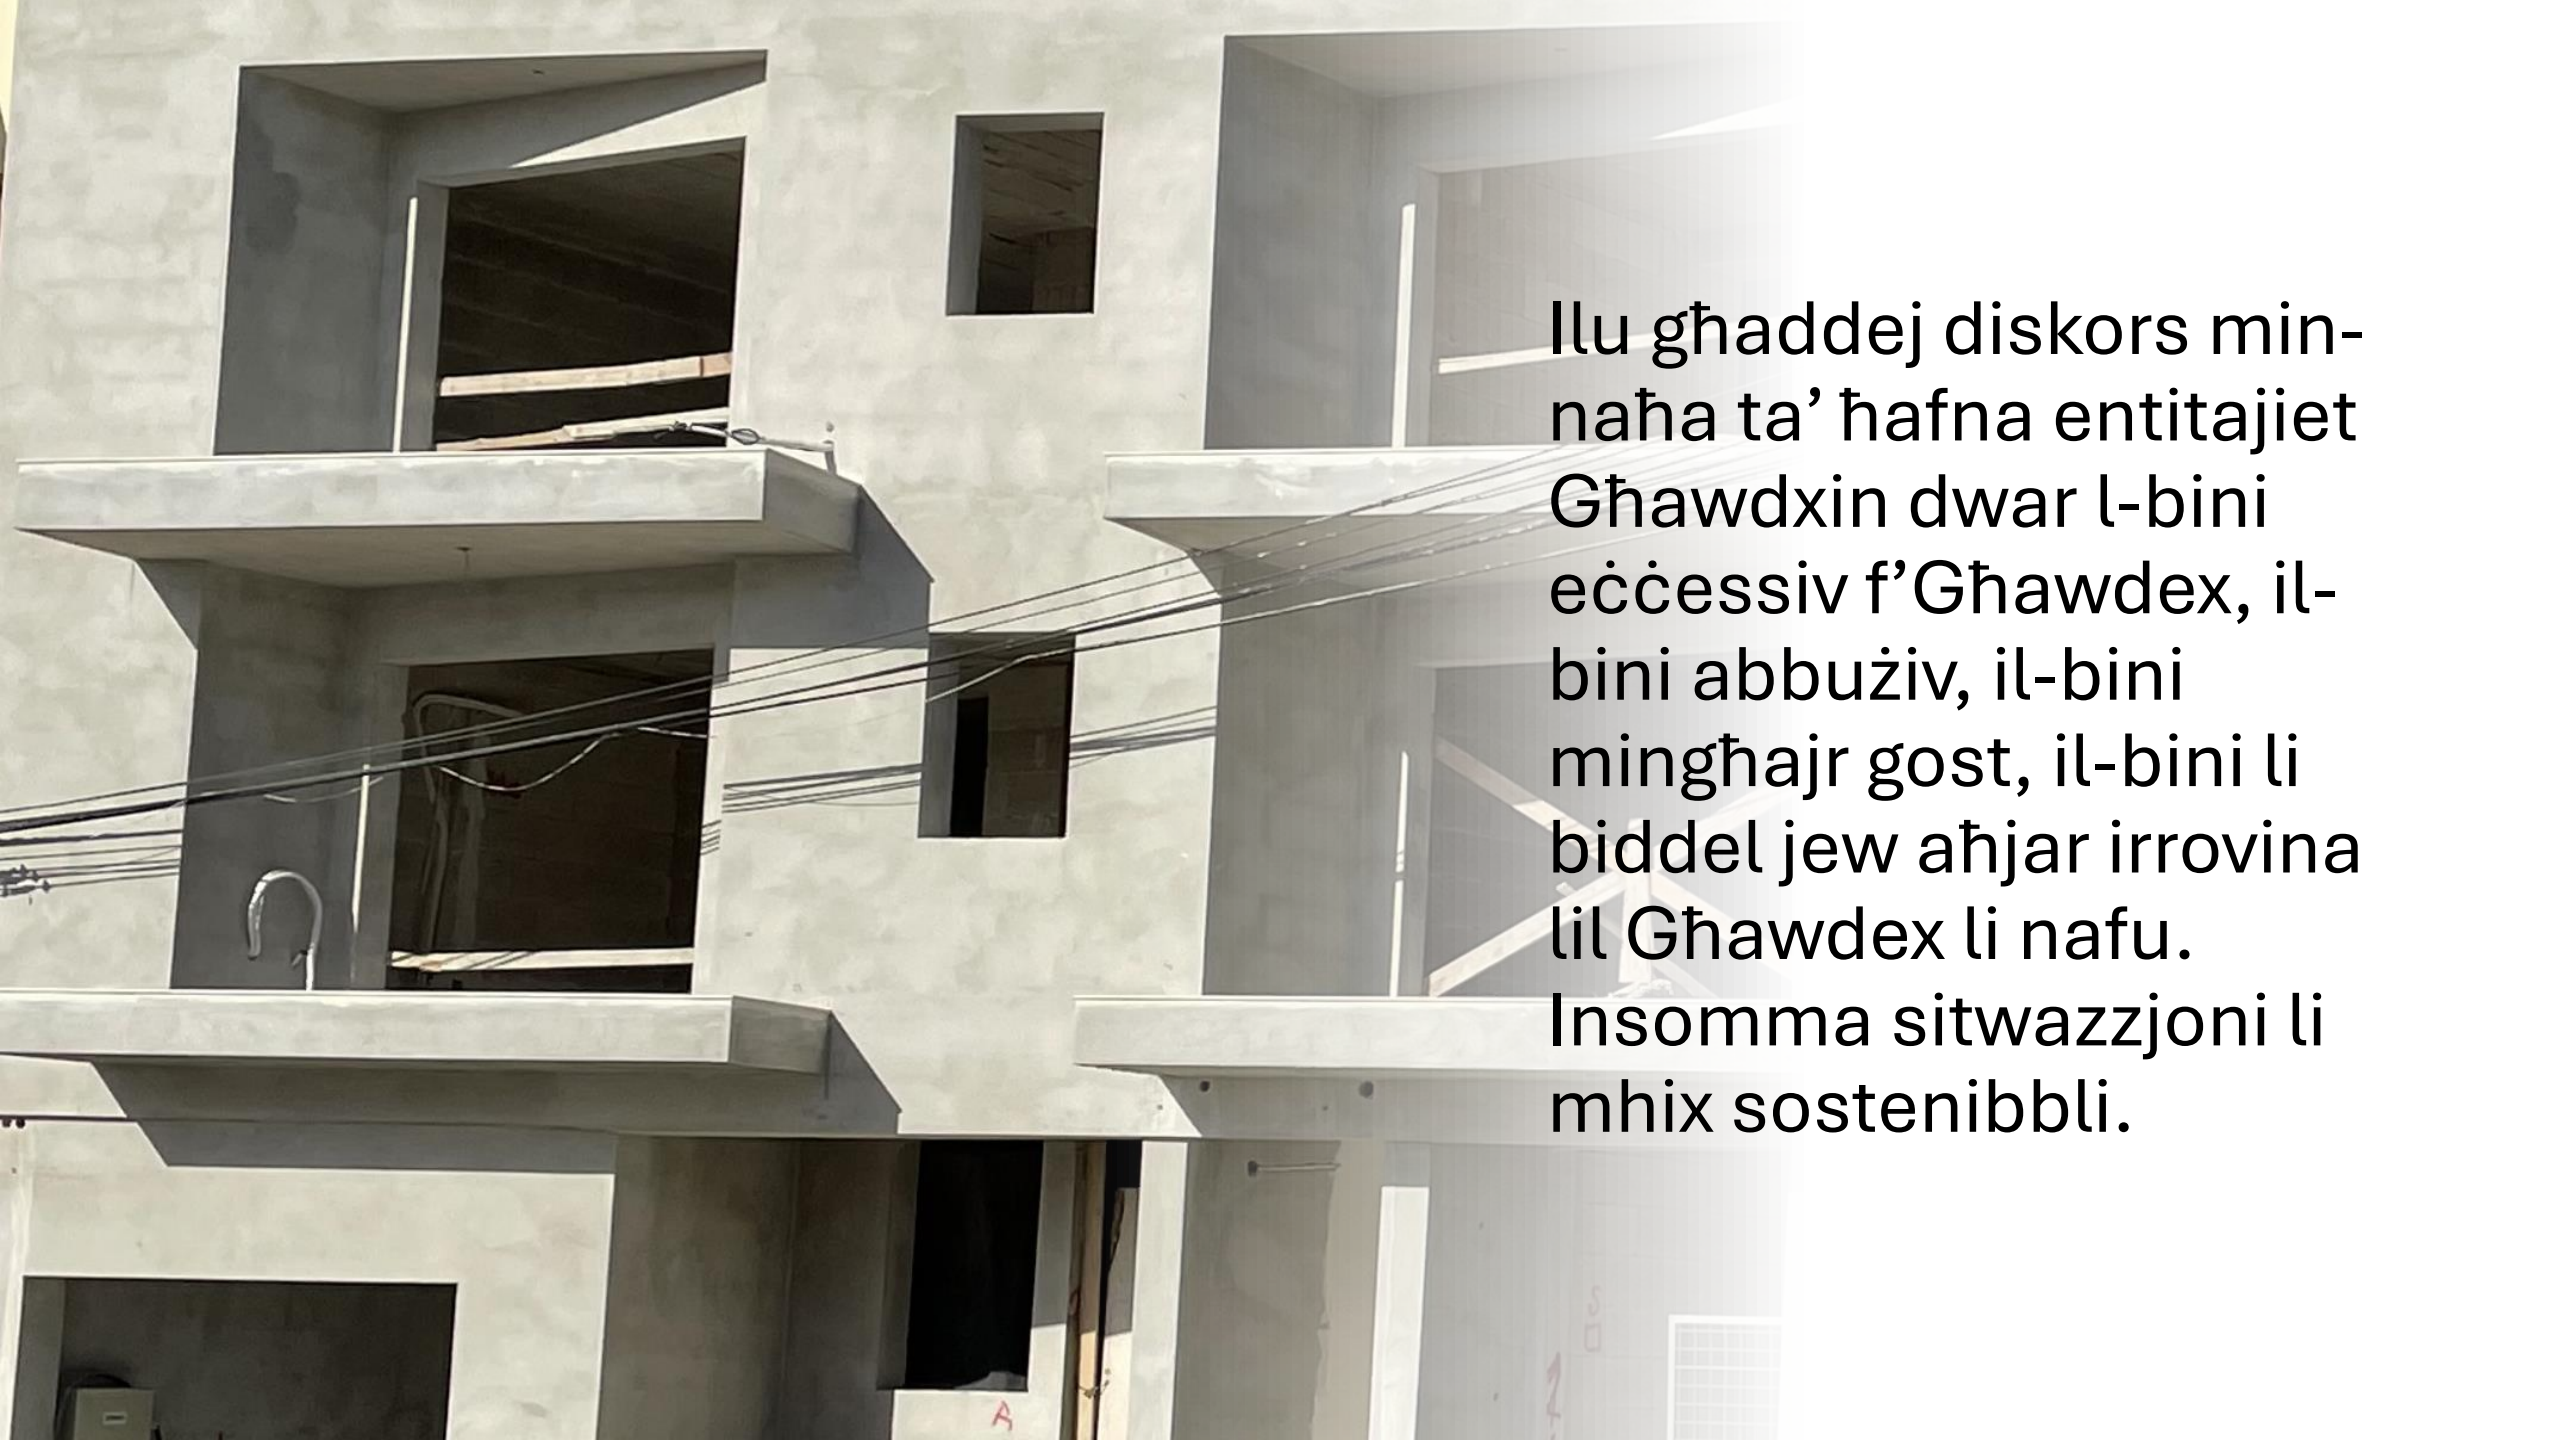

## **GOZO AS AN ENVIRONMENTAL MODEL FOR THE WHOLE NATION**

“Malta cannot however stand still; she must change, though she must ensure that the change is in the right direction. These cities, towns, villages, fortresses and walls must certainly be open to absorb this new prosperity, if Malta is to survive economically. But Malta must also survive on another level if she is to survive at all – as a total environment, as a homogeneous entity, as a particular heritage handed down over generations.”

**SAVE MALTA MANIFESTO 1970**

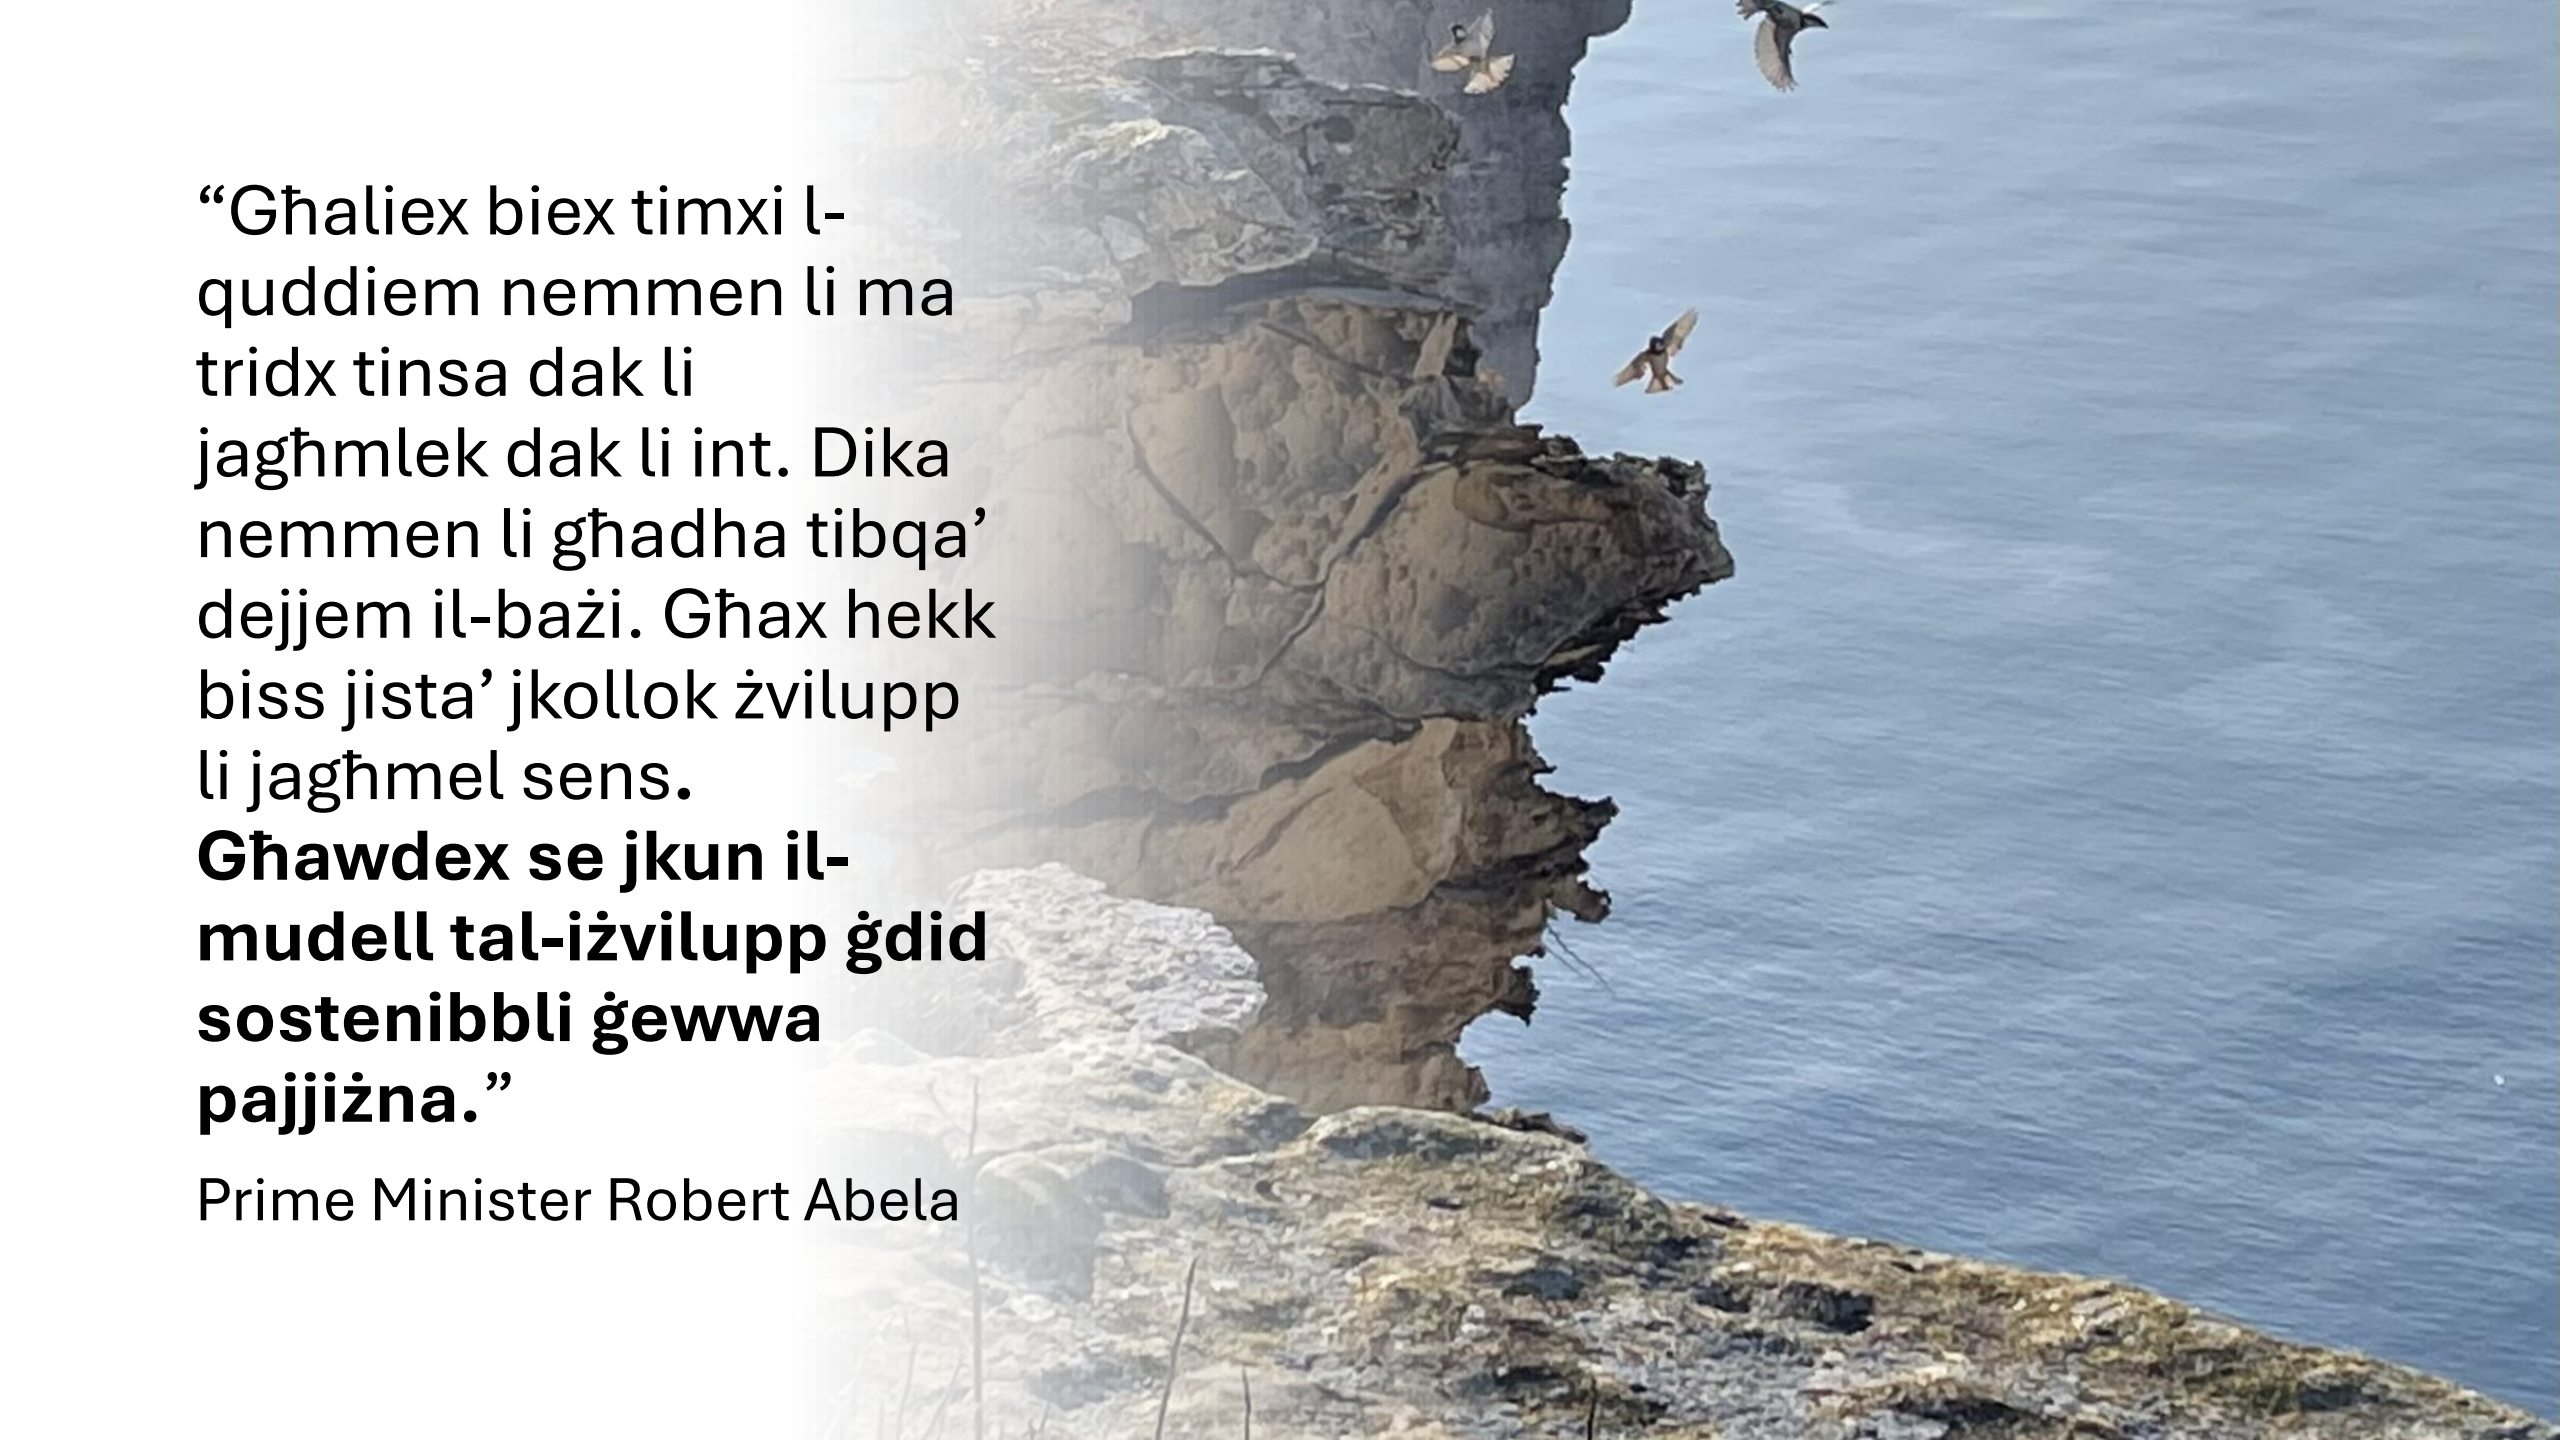

Ilu għaddej diskors min-naħa ta' hafna entitajiet Għawdxin dwar l-bini eċċessiv f'Għawdex, il-bini abbużiv, il-bini mingħajr gost, il-bini li biddel jew aħjar irrovina lil Għawdex li nafu. Insomma sitwazzjoni li mhix sostenibbli.

**Għawdex se jkun il-mudell tal-iżvilupp ġdid sostenibbli ġewwa pajjiżna.”**
